

Op tour with

Lisa, Louis and Maurice

You can use this **educational package** in your class, as a preparation for your visit and to continue working on the assignments carried out in the museum afterwards. You use the documents in this package as follows:

- ➔ Before your visit you use the documents “Maurice1 Preparation”. These include work sheets, fill-in sheets and a correction key.
 - Divide your class into small groups and print a bundle of work sheets in color for each group. Tip: plasticize these documents, so that you can reuse them annually and save on printing costs.
 - Print the fill-in sheets for each student. This can be done in black and white.
- ➔ Upon arrival at the museum, each student will receive a folding card with a pencil. They can take this with them afterwards. Tell the students to take this to class afterwards.
- ➔ After your visit, you use the documents "Maurice2AfterVisit". The procedure is the same as in the preparation. With the help of what they saw in the museum, their folding map and the contents of the work sheets, they can solve the assignments in groups.
